c. If the stock gets out of the main arena, the field Judge should stop the contestant time with a signal from the flag. The contestant should get a rerun with designated extra, with recorded time plus any barrier penalty (if applicable) lap and tap.

d. Lap and Tap time will start from the barrier line which is determined from the length of the neck rope.

e. Judge will be required to put a neck rope score line at each rodeo.

11. Duct Tape should be of a light color such as gray, white, or pink for visibility and to avoid conflict.

12. Judges shall NOT use Gorilla quality tape for both the base and the handhold. Gorilla quality tape can only be used for the base and tape of a lower quality should be used for the handhold. This will avoid the ribbon from potentially breaking in the center at its weakest point.

13. Event will be a one-header.

14. Stock must cross scoreline in front of line judge in their initial move after leaving chute. Failure to do so will result in animal being brought back and rerun. In the opinion of the Rodeo Judges, if that failure to cross scoreline in the initial move out of the chute was caused by contestant, hazer or heeler, a ten (10) second penalty may be assessed on the rerun. Add a clarification: Not crossing in initial move may include but not limited to- Animal turning back before crossing scoreline behind line judge or lineman opposite the line judge, stumbles, falls or not pulling the barrier or neck rope not breaking off of animal's neck.

DALLY TEAM ROPING RULES

- Both header and heeler must pay an entry fee. Contestants can enter twice only.
- Header will start from behind a barrier from the designated box. There will be a 10 second penalty assessed for breaking the barrier. The steer belongs to contestant when he calls for him, regardless of what happens, except in cases of mechanical failure, or if the steer gets

out of the arena. If the steer gets out of the arena, flag will be dropped and roper gets the steer back (lap & tap), with the time added which was taken when the steer left the arena. Team roper behind barrier must throw the first loop at steers head.

- No heeling barriers are to be used.
- Each contestant will be allowed to carry one rope only. Each team will be allowed a total of two throws. Roping steers without turning the loop loose will be considered a no time.
- No cross firing – the direction of the steer's body must be changed before the heel loop can be thrown. However, if the steer stops, steer must only be moving forward for the heel loop to be legal. Any heel loop thrown before the completion of the initial switch will be considered a crossfire and a no time will be recorded.
- No Team Roper can enter without a partner.
- All changes in lists or roping order to split horses, etc. must be made before any stock for that event is loaded in chutes. After stock is loaded, ropers must rope in order listed.
- Steer must not be handled roughly at any time and ropers may be disqualified if in the opinion of the field judge they have intentionally done so.
- If steer is roped by one (1) horn, roper is not allowed to ride up and put rope over the other horn or head with his hand.
- If the heeler ropes a front foot or feet in the heel loop, this is a foul catch. Neither contestant may remove the front foot or feet from the loop by hand. However, should the front foot or feet come out of the heel loop by the time the field flag judge drops his flag, time will be recorded.
- If a permanent fixture fouls the roper, no re-run will be awarded.
- LEGAL CATCHES: There will be only 3 legal head catches:
 - Both horns.
 - Half a head.
 - Around the neck.
- Dew claw catches are legal if the catch holds for the field judge's drop of the flag.
- Any heel catch behind both shoulders is legal if rope goes up heels.
- One hind foot receives a five (5) second penalty.
- If loop crosses itself in a heel, catch is legal. This does not include head catches.
- If heeler misses, header will follow steer from arena for the steer to be turned loose.
- Money won by a team will be paid out equally between both header and heeler.
- Stock used for Team Roping must be of the same sex, whichever the stock contractor prefers to use. Stock must be uniform or stock contractor will be subject to a fine.
- Steers must weigh at least 400 pounds and not over 650 pounds. Prior to the rodeo all cattle must be run through the chute. If steer's horns will not fit through the chute, steers horns must be tipped to fit through, or removed from the draw. Steers must have a minimum of 6" from base to tip on each horn.
- If contestants runs wrong steer, a re-run will be given on the correct head and the time on the incorrect steer will be disregarded.
- Time to be given when the steer is roped on both ends, in a direct line, and horse is on all four feet. Horses must be facing steer in approximately 120 degree angle or better with ropes tight, dallied or tied.

- When a barrier is stretched and the animal is standing, contestant has a 45 second time limit to call for stock. After 45 seconds the animal may be released and contestant receives a no time.
- A contestant may have a person to push their steer out of the chute. No pusher will be allowed to follow steer out of chute in the act of tailing steer. This will incur an immediate disqualification.
- There will be no ground money. In case of only one qualified time, the qualifying contestant will receive all money in that event. Points will count for all money paid. If there are no qualified times, stock contractor will receive all the money.
- If contestant dismounts during run, team will be disqualified.
- There will be a 30 second time limit to complete the catch.
- Headers are required to hold dally until head catch is inspected and approved by the field judge. Failure to do so will result in disqualification.
- All judges' decisions will be final.

- Barrel racers are required to wear western attire, button down long sleeve shirts, jeans, hat and boots in all grand entries and while contesting. Solid colored jeans may be worn.
- Arena will be dragged after 5 runs, regardless of turnouts, no shows, etc. A committee or stock contractor may elect to drag with 10 runs.
- If contestant knocks a barrel over, there will be a 5 second penalty for each barrel knocked over. If a contestant knocks over a barrel and the barrel stands up again on the other end, this will be considered a knocked over barrel with penalties applying. If all barrels are standing when contestant crosses the finish line after completing a qualified run, but barrel falls over after she is flagged, the contestant will not be penalized.
- Junior, or any other barrel stakes other than the SERA event barrel stakes, must be placed a minimum of 10 feet above or behind SERA barrel stakes.
- If a contestant runs out of position, the contestant that is supposed to run can choose to run at that time or after that performance in slack. If the contestant runs after the performance, she will receive a clean drag and will run first. The arena must then be dragged again before slack proceeds. The contestant who ran out of order will receive a no time.
- A contestant will not be penalized or disqualified for touching a barrel.
- If a contestant breaks the pattern and continues to finish the pattern, the contestant cannot circle a barrel more than once. A minimum fine of \$50.00 will be assessed. Fine amount may be increased for excessive abuse, at judges discretion.
- A contestant will be disqualified for not making a true cloverleaf pattern.
- No re-run will be given for personal faulty equipment.
- Once the barrel stakes have been placed, no person will be allowed to work any horse on stakes until all performances and slack have been completed.

- A barrel racing pattern may be run right or left.
 - **Barrel racer must cross the Timer line with hat on head or will receive a no time.**

 - If a contestant believes interference occurred during her run she must immediately pull up and declare herself to receive a re-run with no previous penalties.
 - Contestant must be mounted when she enters the arena. There is to be only one horse in the arena at a time during the barrel race, without exception. If the pattern is not centered to the gate, contestant shall be allowed to set up her run as necessary, without circling. (if a circle is made there will be a \$100 fine). A spin or pivot is acceptable and a pony horse may be used.
- All judges decisions will be final.

STAKING:

- Barrel and timer positions are to be tape measured and staked by the judges. These measurements are to be recorded on the official form provided to the judges and secretary of the rodeo. (This form will be posted by the secretary for contestants to view, and it must be signed by the judges for each performance showing that the barrels were staked properly and re-measured each night.
- A standard pattern is 60 feet from the score line to the 1st barrel, 90 feet from the 1st to the 2nd barrel, 105 feet to the 3rd barrel. However, pattern should be set to accommodate arena and arena conditions. If arena has no alleyway the judges should allow ample stopping room from gate to electric eye. Barrels should be set a minimum of (or no closer) than 15 feet from the fence on the first 2 barrels, and a minimum of (or no closer) than 25 feet from the back fence. In the event an arena is wider than 150 feet barrels should not exceed 100 feet across from 1st barrel to 2nd barrel. The distance between the 1st and 2nd barrels cannot exceed the distance from the first two barrels to the third. Barrels are to be positioned on the inside of the stakes. The timer should be staked no more than 60 feet from the alleyway.
- The barrel pattern may be moved up or down the arena as long as the distance between the barrels and the starting line are the same.
